Obituary

Birth

Therman Earl Robinson Sr., born October 2, 1946 in Oakland, CA to the parents of James Edward and Rosetta Robinson. He was the 2nd son of the couple, and the family resided in Richmond, CA throughout his formative years.

Education

Therman attending Fremont High School and upon graduation in 1964 he enrolled in Merritt Junior College in Oakland from 1964-1966 and completed an Associates Degree. He went on to Cal State University @ Hayward from 1966 to 1969 where he received his Bachelors in Arts with a History major. Here he became involved in student activities leading to his activism on the campus taking a leadership role in the Student Union and began to fight for the rights on and off campus.

He became involved with several organizations, like the NAACP in Oakland, Afro American Association at U.C. Berkeley, Kappa Alpha Psi Fraternity, Gamma Alpha Chapter, UC Berkeley, the Black Panther Party, UCLA Graduate Afrikan-American Student Association, the Nation of Islam in Los Angeles. He never stopped supporting and speaking to advance the social and political rights of African Americans. He also continued to be active with his fraternal brothers.

Therman moved to Southern California upon being accepted into a graduate studies program in History at UCLA. He graduated with a Masters Degree in History in 1974.

Career

Upon graduation with a Masters in History, Therman took on several teaching jobs but eventually accepted a Professorship at Los Angeles Trade Technical College (LATTC) in 1976. He not only taught American History, but African American and World History. His activism continued on the campus as he became a founding member and later President of the Black Faculty & Staff Association (BFSA). He furthered his political interest by advising the Black Student Union providing 40 years of service at LATTC. Therman retired 2017 and enjoyed, traveling both nationally and internationally, bicycling, walking the beach, sitting with a book on a park bench and always entertaining good conversations with friends and family.

In Passing the Laccd BFSA provided these comments:

We lost another Black King, Professor [Therman Robinson](#)... He unexpectedly passed away this morning after a short illness. He was a history professor at LA Trade-Tech College, and one of the founding members of the Black Faculty & Staff Association (BFSA). He was an inspiration to so many students, faculty, and staff. Although he had retired, we are still going to miss his spirit and strong, unapologetic Black love and support.

Remembering Therman

Therman leaves behind his wife,
Fatimah Moore-Robinson

~*~

Four Children,
Malsi Robinson, Amin Robinson, Adelia Robinson and Thurman Robinson, Jr.

~*~
